

The Fourth International Symposium

"Atomic Cluster Collisions: structure and dynamics from the nuclear to the biological scale"

ISACC 2009

Ann Arbor, Michigan, USA, July 14 - 18, 2009

Organizing Committee:

V.V. Dick
A.V. Solov'yov (co-Chair)
I.A. Solov'yov
E. Surdutovich (co-Chair)
A.V. Yakubovich

**For registration and further information visit
<http://www.fias.uni-frankfurt.de/isacc2009>**

Scientific Program:

Clustering phenomena at nuclear and subnuclear scales
Structure and properties of atomic clusters
Electron & photon cluster collisions
Ion-cluster collisions
Clusters on surface
Phase transitions, fission, fusion and fragmentation in finite size systems
Clusters in external fields
Clustering and self-organization
Cluster ensembles and nano systems
Structure and dynamics of bio-macromolecules
Collision processes involving biomolecules
